

World's first key lockable, polymer gravity latch

Molded latch body

Strong and rust-free. Constructed of UV-stabilized, industrial-strength polymer.

Easy installation

Requires only one drilled hole through post. Fast and accurate front and side installation, with fitting jig provided.

Stainless steel components

316 marine-grade stainless steel components will totally resist rust and stains

6-pin rekeyable lock

Can be rekeyed (by a locksmith) to match existing doors and other accesses.

External Access Push-Button

The LOKKLATCH® range can be opened from either side of the gate using an External Access Kit (EAK)

Vertical adjustment

Latch provides quick and simple vertical adjustment to allow for gate sag or ground movement over time.
