'Unless you try to do something beyond what you have already mastered, you will never grow'

Ronald E Osborn

Elements Hardware is born from a culture of quality and innovation, a sister company to Windsor; New Zealand's premiere interior architectural company since 1985. Elements Hardware brings the same principals of quality and integrity to outdoor architectural hardware.

An international company originating in Southland New Zealand, the hardware is made specifically with the harshest outdoor elements in mind. With a genuine commitment to quality, Elements Hardware have a research and development team constantly looking to new products and design.

Design is a key feature of the company and Elements Hardware are committed to continuous improvement and innovation.

# Letterbox & Gate Hardware

## Solid Brass

> Available in Polished Brass or Satin Chrome finishes ex stock or Powdercoat to order

### Letterplates

> Letterplates have rear fixing screws to suit timber or masonry

**5193**  
105mm x 380mm  
50mm x 320mm opening

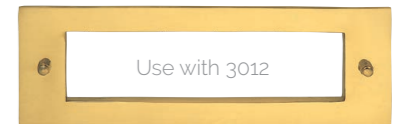

Shown in SC

**3012 Front**  
95mm x 280mm  
46mm x 198mm opening

Shown in PB

**5147 Rear**  
95mm x 280mm  
55mm x 208mm opening

Shown in PB

> Takes A4 envelopes

### Newspaper Ring

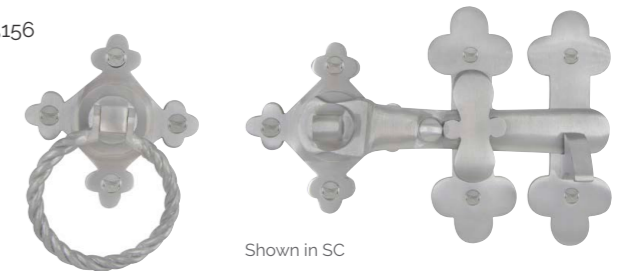

**5141**  
160mm OD, 100mm ID

Shown in PB

### Gate Latch

**5156**

Shown in SC

### Face Fixed Numerals

5251 50mm  
5252 76mm  
5253 100mm  
5254 150mm  
5255 200mm

### Alphabets

A, B, C, D,

5300 50mm  
5302 100mm

A, B, C, D, E, F, G, /

5301 76mm

### Victorian Style Alphabet

5013 50mm  
5014 76mm

Finish: PB Finish Only

# Numerals & Alphabets

## Stainless Steel

### Concealed Fix Numerals

5367 76mm Stainless Steel Numeral  
5368 100mm Stainless Steel Numeral  
Strong adhesive rear fixing

0123456789

- > Concealed fixing
- > Contemporary font styles
- > Brushed stainless steel finish to complement modern décor

5369 150mm Stainless Steel Numeral  
5370 200mm Stainless Steel Numeral  
Bolt-through rear fixing

0123456789

> Powdercoat available to order - Please enquire

### Concealed Fix Stainless Letters

5371 76mm Stainless Steel Letters A, B, C, D, E, F, G, /  
Strong adhesive rear fixing

NEW NEW NEW

# Letterbox & Gate Hardware

## Black Iron

2020 Numerals 76mm

0123456789

2035 Newspaper Ring  
96mm ID, 156mm OD

2036 Alphabet A-D, 76mm

A B C D

2045 Letterplate Plain,  
280x105mm. Opening 195x45mm

2001 Hinge 325mm (EA)

2003 Gate Latch  
Maximum gate thickness 48mm

2002 False Hinge 400mm (EA)

2046 Gate Latch Suffolk  
Maximum gate thickness 48mm

### Door & Gate Studs

2016  
Door Stud  
24x24mm

2029  
Door Stud (Pic)  
20x20mm

# Safes

## Key Safes

1336 Standard Key Box

- > Outside dimensions  
L x W x H - 99mm x 59mm x 35mm
- > Inside dimensions  
L x W x H - 70mm x 39mm x 12mm
- > Fits 5 std keys

1337 Key Box with Hoop

- > Outside dimensions  
L x W x H - 93mm x 55mm x 27mm
- > Inside dimensions  
L x W x H - 64mm x 38mm x 12mm
- > Fits 3 std keys

## Mini Safe

1338 Heavy Duty Mini Safe

- > Outside dimensions  
L x W x H - 125mm x 87mm x 50mm
- > Inside dimensions  
L x W x H - 97mm x 62mm x 28mm
- > Fits garage remote

- > Multiple uses:
  - Holiday homes - securely store keys, easily change pin number when required
  - Real Estate Agents - use the box with hoop to shift between properties
  - Building sites - takes away the stress of losing keys for the building site
  - Your home - never be locked out of the house again
- > Weather proofing housings available - protects finish from exposure to elements
- > 1337 Key box with Hoop can also be used as a padlock
- > 1338 Mini Safe is ideal for storing garage remotes, swipe cards, small valuables
- > Secure locking with combination wheel lock design

^1336-BLK

^ 1336-BLK Shown fitted to construction equipment, with supplied rubber cover installed.

# Combination Barrel Bolts

1363 BLK - 50mm x 35mm x 120mm

1363 WHT - 50mm x 35mm x 120mm

1363 SLV - 50mm x 35mm x 120mm

1362 BLK - 30mm x 30mm x 110mm

1362 WHT - 30mm x 30mm x 110mm

1362 SLV - 30mm x 30mm x 110mm

- > Keyless - choose your own combination
- > One-way screws for high security - tamper resistant
- > Extra tough bolt
- > Stainless steel fixings and heavy duty plastic coating for outdoors
- > Suitable for horizontal and vertical fixing
- > Compliments aluminium joinery
- > Versatile, suitable for a variety of applications
- > Easy to install

## Care & Maintenance

### Brass

The high polish of Elements Brass products is treated with a clear protective coating to provide durability. Brass, like sterling silver, will gradually tarnish and take on an antique appearance. Atmospheric conditions, caustic agents such as paints, or scratches from sharp objects may cause the protective coating to crack or peel causing spotting and discolourations. However, the beauty of the metal can be maintained by taking a few simple steps.

Initial care for brass requires only a quick rub with Wax Polish and light buffing with a soft cloth. You may prefer to do this weekly, especially in exterior, often used or damp environments.

"Blue Magic" Metal Polish is a quick, effective way of restoring mildly tarnished brassware. If heavy discolouration occurs the finish can be restored by stripping the remaining lacquer and polishing regularly with "Blue Magic". Alternatively let it age naturally to an antique finish. The beauty of solid brass is that it can always be restored to its original lustre.

### Stainless Steel

To aid the longevity and appearance of quality Elements stainless steel product we recommend that it is kept clean and a metal polish such as "Blue Magic" be applied periodically. Atmospheric conditions, salt deposits, acids, caustic agents, cement or dust on construction sites all have the potential to cause discolouration to the surface.

If this occurs do not be concerned as usually this is not the stainless steel itself but particles clinging to its surface. The product can be revived by following the above maintenance procedure and repeating regularly. This small amount of routine care can only preserve the elegance of your Elements stainless steel hardware.

### Black Iron

Elements Black Iron range has a powdercoated finish. Iron naturally oxidises, especially when exposed to the weather, and this can occur if the powdercoating is scratched or chipped. The iron itself will not deteriorate with oxidation, other than the discolouration of the surface, as the oxidation forms a skin on the surface unlike steel which continues to rust. Small chips can be touched up with a black wax crayon as the wax will provide weather protection. Larger areas can be restored with a black etch paint such as PA10.
