Step 4: Select your finish

Matt Black

Tone: Deep and intense

Finish: Flat monochrome finish

The always on-trend Matt Black is both highly durable and a timeless option for any space or style of home.

Polished Brass

Tone: Warm gold

Finish: Bright reflective shine

This Polished Brass finish has a distinctive jewel-like glow. Over time this finish develops beautiful variations in its colour as the polished appearance ages, giving it a distinctly timeless look.

Brushed Brass

Tone: Warm gold

Finish: Satin brushed

Brushed Brass exhibits bright, warm tones, adding contemporary flair to our Polished Brass finish. Effortlessly paired with colourful palettes or comfortable as a statement piece, the fine brushed detailing and vibrant gold hues make this finish a must-have.

Polished Chrome

Tone: Cool silver

Finish: Bright reflective shine

The pristine shine of Polished Chrome evokes a sense of luxury, adding refined elegance to any space. This finish can be used across a range of design styles, standing the test of time in both contemporary and classically styled homes.

The durability and appearance of our lacquered finishes are strictly connected with the user's care. Longevity of the lacquer is dependent on day-to-day usage and a number of environmental factors. Direct application of abrasive cleaners or chemicals containing alcohol will accelerate the breakdown of the lacquer, and should be avoided.

Brushed Chrome

Tone: Cool silvery blue

Finish: Satin brushed

Sleek and understated, the modern Brushed Chrome features subtle detailing and exhibits cool tones, a perfect match for all stainless-steel fittings and appliances.

Signature Brass

Tone: Deep bronze tones

Finish: Distinctively hand-aged

The unique Signature Brass finish offers beautifully rich colour, its dark undertones and golden highlights adding depth to any space.

Polished Nickel

Tone: Warm silver

Finish: Bright reflective shine

The Polished Nickel finish is a warmer alternative to the cooler Polished Chrome, softening its appearance while maintaining a sense of luxuriousness.

Satin Nickel

Tone: Warm silver

Finish: Gentle sheen

With its contemporary aesthetic Satin Nickel is the perfect finish for an understated yet sophisticated look. Silver hues are balanced with the warmth of nickel to make this finish highly diverse.

Distressed Nickel

Tone: Deep silver with mottled pewter tones

Finish: Rustic textured

Distinct and bold, Distressed Nickel has a beautiful worn appearance. Similar to traditional English pewter, this character-filled finish will add an authentic touch to any modern or classically styled project.

Selecting your Door Furniture

Step 5: Select required lock functionality

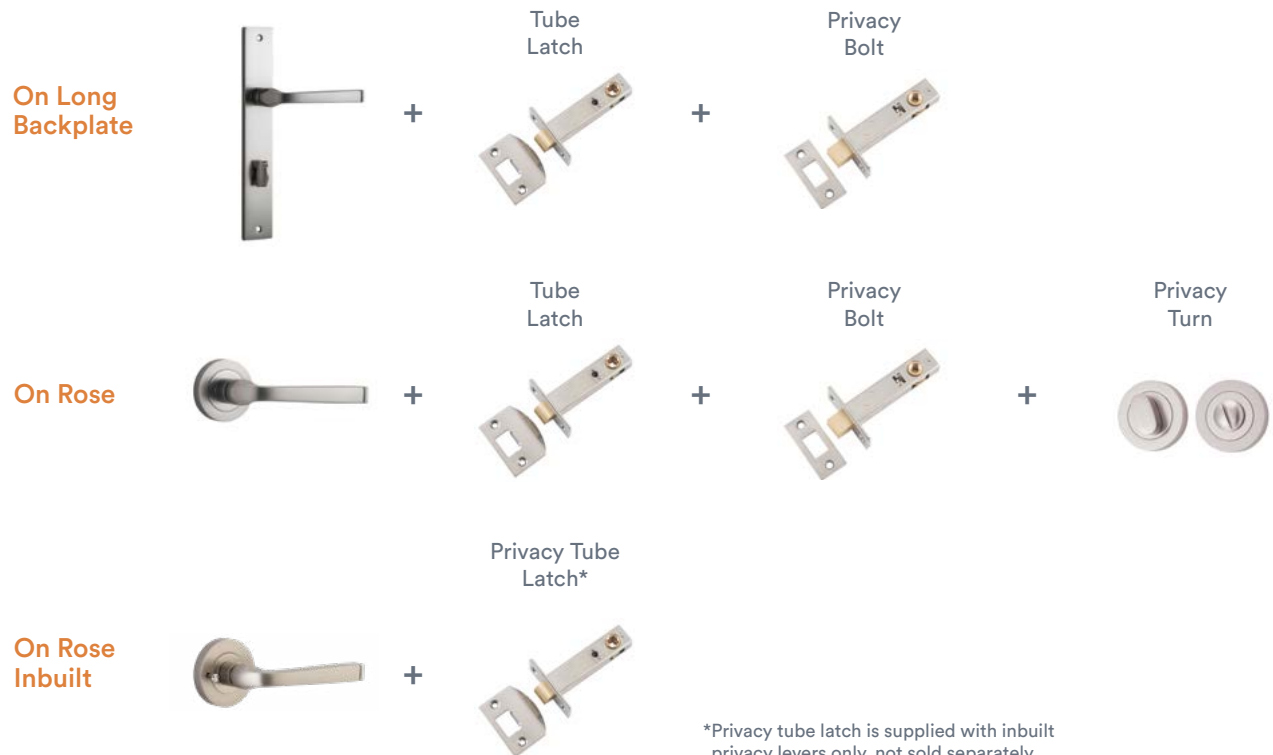

Non-locking Passage Set

Used when a door doesn't need to be locked.

Privacy Set

Ideal for bathrooms, they have a thumb turn or inbuilt button for privacy.

*Privacy tube latch is supplied with inbuilt privacy levers only, not sold separately.
