

Mortice Digital DX Lockset

The Lockwood Digital DX Locksets provide a mechanical method of keyless entry and are designed to control access into commercial areas, especially when frequent combination changes are needed to maintain security.

For extra security when under forced attack, the inbuilt clutching mechanism allows the outside knob to rotate without operating or damaging the lock.

The factory set 5 digit code is easily changed to any 4, 5 or 6 digit code using the code changing kit provided with each lock.

As the digital lockset utilizes mechanical operation, electrical wiring is not required.

3570 Mortice Digital DX Locksets facilitate the combination of 3572 Series Cylinder Mortice Locks, Lockwood 1800 or 2800 Series and DX Digital code pad to provide keyless entry.

Key Features

Outside Function

Press the C button, enter the correct code, then turn the knob to unlock the door. Upon releasing the turn knob the code is automatically cancelled.

Inside Function

By lever handle or knob at all times.

Hold-Back Function

A key operated hold-back function is available upon request. This is achieved by a pin tumbler cylinder on the inside allowing the bolt to be held back.

Product Details

3572 Key Override Digital DX Lockset

The Lockwood Digital DX Locksets provide a mechanical method of keyless entry and are designed to control access into commercial areas, especially when frequent combination changes are needed to maintain security.

For extra security when under forced attack, the inbuilt clutching mechanism allows the outside knob to rotate without operating or damaging the lock.

The factory set 5 digit code is easily changed to any 4, 5 or 6 digit code using the code changing kit provided with each lock.

As the digital lockset utilizes mechanical operation, electrical wiring is not required.

3570 Mortice Digital DX Locksets facilitate the combination of 3572 Series Cylinder Mortice Locks, 577 cylinder assemblies, Lockwood 1800 or 2800 Series and DX Digital code pad to provide keyless entry with key override.

Key Features

Outside Function

Outside: Press the C button, enter the correct code, then turn the knob to unlock the door. Upon releasing the

turn knob the code is automatically cancelled. The key override pin tumbler cylinder enables quick access by key for authorities such as the fire brigade or those who need to carry a master key to access all rooms of a building. Inside: By lever handle or knob at all times.

Inside Function

By lever handle or knob at all times.

Hold-Back Function

A key operated hold-back function is available. This is achieved by a pin tumbler cylinder on the inside allowing the bolt to be held back. Will also require change to internal furniture plate.

Restricted Special Keying

Lockwood locks can be keyed to a number of controlled and/or specially keyed systems. These range from legally protected keys to protect against unauthorised duplication, which can also include specially designed key systems such as master key systems, which allow for different levels of mechanical access control.

Please refer to Lockwood Catalogue Cylinders & Keying for keying systems or contact your local sales office or customer service for specific information.
