

Sliding Door Closer

ASSA ABLOY

ASSA ABLOY, the global leader
in door opening solutions.

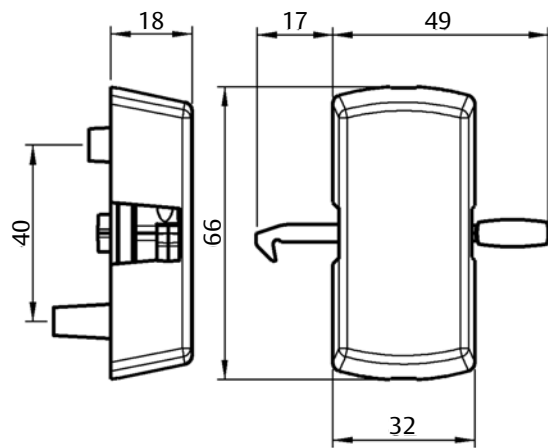

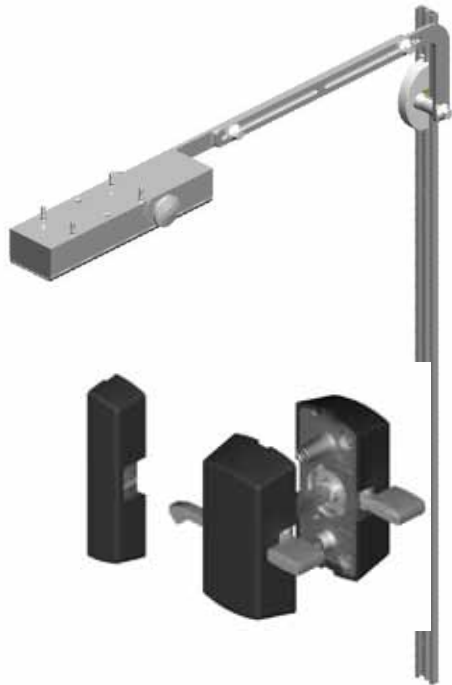

Incorporating innovative and modern design, ASSA ABLOY has provided a solution for home owners who desire safe outdoor flow without the hassle of a fence between the house and swimming pool.

The Sliding Door Closer is hydraulically controlled and can be installed on new doors or retrofitted to most existing doors. Providing safety and convenience, the closer has been designed for easy use and is available in the popular millennium silver finish.

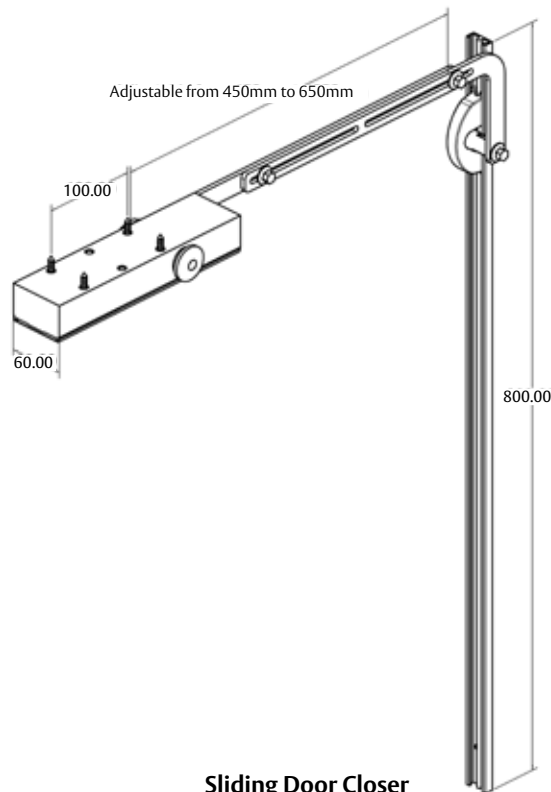

Features

- Adjustable closing and latching speeds, adding to safety
- Backcheck for added safety on closing
- Suitable for installation on smooth running roller supported sliding doors
- Supports up to 60kg door weight
- Suits up to 2500mm high
- Suits up to 1200mm closing range
- Minimum reveal depth (door frame thickness) 80mm
- The self latching device provides access from both sides of the door. It is included in every Sliding Door Closer purchase or can be purchased separately

Self Latching Device
(suits door thickness 25-36mm)
