

# Bannister brackets

One of New Zealand's leading suppliers of bannister and handrail brackets, Miles Nelson offers a wide range in zinc, brass and stainless steel for domestic and commercial installations. The range also features the Lumos® LED Handrail Brackets, designed for interior or exterior home or commercial ambient, night or safety lighting in stairways, walkways and entrance ways. The revolutionary Lumos® LED bannister bracket seamlessly blends function and design by providing lighting within the bracket body.

# Lumos® bannister brackets

**The revolutionary Lumos® LED bannister bracket seamlessly blends function and design by providing lighting within a bannister or railing bracket body.**

This development simplifies the installation of safety or railing illumination into one stylish bracket.

The brackets use low energy consumption LED bulbs with a life of approximately 12 years under continuous use. The light does not produce heat and is therefore safe to touch. Recommended bracket spacing is 900mm, as light coverage area at maximum height is 900mm. One transformer can power up to 16 brackets containing LEDs.

Requires the use of a Miles Nelson regulated power transformer, supplied separately. Complies with BIA acceptable solution D1/AS1. Can also be used with photosensitive sensors for night lighting.

Lumos Brackets are designed and manufactured in New Zealand.

DESIGNED BY  
MILES NELSON

- Lumos® bannister bracket
- 12 volt LED downlight
- Very low power consumption
- Cool running
- Adapter for flat profile rails
- Fixings supplied
- Base: 52mm x 50mm
- Wall projection: 70mm
- Upstand height: 80mm
- Overall height: 115mm
