001Touch™ Keyless Digital Deadlatch

For more than seven decades Lockwood has been securing homes in Australia. Today Lockwood is proud to launch the future of keyless locking. The 001Touch™ combines a stylish digital touch screen keypad with the security of the iconic Lockwood 001® Deadlatch. The simple convenience of using a PIN code means you never have to carry keys again!

Illuminated Touchscreen Keypad

The touch screen keypad has no mechanical buttons which means no trace of your secret PIN code.

PIN Code or Key Card

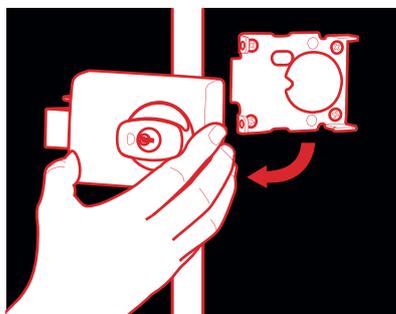

Choose the convenience of a PIN code or key card. One master PIN code will manage up to twenty user PIN codes. Up to 20 key cards can also be programmed.

Cryptic Code Function

Prevent others from identifying your PIN code during access. The cryptic code function confuses the onlooker but at the same time allows you to still gain entry.

Retrofittable

Replace your existing 001 Deadlatch™.

Product Details

001Touch Chrome	001T-1K1CPDP
Backset	60mm
Battery Cover	High quality ABS plastic
Door Thickness	32mm to 50mm
Finishes	Chrome Plate (CP)
Keycard	RFKC10
Keyfob	RFKF10
Key Pad Case	High purity zinc alloy
Latch	Stainless steel 18mm projection

001Touch™ Keyless Digital Deadlatch

Secure Mode

Secure mode gives the option to lock the 001Touch™ internally with a key. This secures the door on both sides with the ability to unlock the door with a PIN code or key card externally.

User Code that Expires

A temporary code can be programmed to last from three hours to two weeks. This is ideal when a tradesman needs access for a few hours or when a neighbour is house sitting.

Visual Guide for Programming

For added convenience, an illuminated guide will assist in the programming of key features.

Low Power Consumption

Four standard AA batteries will unlock a door up to 10,000 times. A warning light will appear when the battery level reaches less than 30%.

Battery Check Function

The battery level can be checked without removing the batteries. A simple sequence reveals the battery level between 30%–100%.

Smart Memory

The settings, codes and key cards will remain programmed in the lock in the event the batteries are depleted.

Emergency Battery Connection

The settings, codes and key cards will remain programmed in the lock in the event the batteries are depleted.

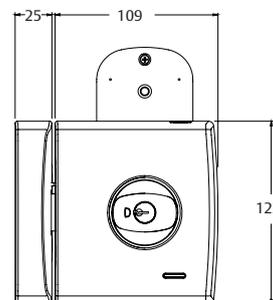

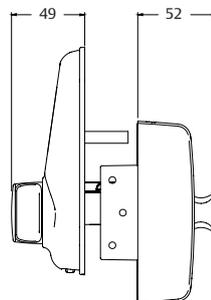

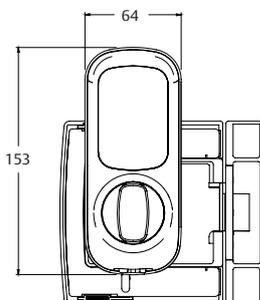

001Touch™ Keyless Digital Deadlatch

Exterior

Interior

Digital Touch Screen
Illuminated keypad.

Proximity Card
2 Key Cards included.

Keyless Wireless Digital Deadbolt

The Lockwood Keyless Wireless Digital Deadbolt offers the flexibility of a keyless entry locking solution whilst providing wireless ZigBee (HA1.2) network connectivity to integrate into building automation solutions.

Key Features

- One touch locking
- 250 user codes (when Networked)
- 9V Battery terminals for emergency
- Networkable

The product fits majority of doors with a 54mm hole, making it ideal for new doors or replacement for an existing door lock.

Wireless Network Connectivity

This product can be controlled remotely by smart phones, tablets and web-enabled devices once it has been integrated with home/ building automation systems using a ZigBee wireless network module.

Illuminated Touch Screen Keypad

The touch screen keypad has no mechanical buttons which means no trace of your secret pin code.

Pin Code Allowance

One master pin code will manage up to 250 user codes when used with a wireless network module or 25 user codes when not networked.

Voice Guided Programming

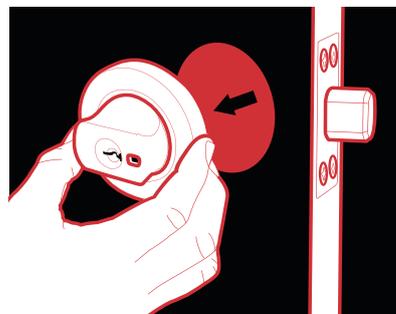

Voice Guided Programming will audibly provide step by step programming instructions.

One Touch Locking

Conveniently lock your door by simply touching the keypad or use the automatic locking function.

Retrofittable

Fits majority of doors with 54mm hole.

Other	Other devices to be controlled within the building need to be networked to the ZigBee HA 1.2

Rebate Kit Accessories

Part Number	Description
7579SSS	Universal Rebate Kit
7574SSS	Strike Square Corner

Keyless Wireless Digital Deadbolt

Safety

Never Carry Keys

Keyless PIN code access ensures security whilst away and allows people entrusted with a PIN code to gain entry with the simple push of a button.

Automatic locking ensures your family and valuables are constantly protected as the door is locked after a 30 second delay when either entering or leaving the property.

Security

Resting Easy All Night Long

Privacy mode provides ease of mind by disabling the keypad to ensure that no one can enter the property from outside while you are sleeping, with the exception of close family entrusted with a key.

Remote Management

Remote Access Control

The Wireless Digital Deadbolt lock status can be viewed and controlled via a PC, Notebook, Tablet or Smartphone. Simply lock or unlock your door from anywhere in the world.

Receive a text message or email alert when the door is accessed to know that your loved ones have arrived home safely (when integrated with Remote Management Software).

Available functions may vary based on your home automation control software.

Convenience

Trigger Other Devices

Integration with Remote Management Software will enable you to turn on other devices when you open the door using your unique PIN code including:

- Unlock all doors
- Turn on the interior house lights
- Turn on the TV
- Adjusts the thermostat to 21°C
- Close the curtains

Note: Available functions may vary based on your home automation control software.

Control

Building Automation & Integration

The Lockwood Wireless Digital Deadbolt has been designed to easily integrate with a variety of wireless building control and security systems when used with ZigBee HA1.2 wireless network modules. Remote management puts you in control of protecting what is valuable to you from anywhere and at anytime.

User Interface Functionality

View/Change Lock Status

The lock status can viewed or changed on a Smart Phone, Tablet or PC. From anywhere in the world, remotely unlock the door for a neighbour or a caregiver.

Setup/Management

Set-up each lock and control the management of users on every door where a Lockwood Wireless Digital Deadbolt is installed.

History

View the history of who comes and goes at each door.

Trigger Other Devices

Use the lock to trigger other devices within the building such as lights, thermostat, alarm system and more.

Text/Email Alerts

Receive text or email alerts to inform who has entered the building and at what date and time.

Available functions may vary based on your home control software.

Controlling your lock from anywhere in the world

002 Digital DX Deadlatch

The Lockwood Digital DX Locksets provide a mechanical method of keyless entry and are designed to control access into commercial areas, especially when frequent combination changes are needed to maintain security.

For extra security when under forced attack, the inbuilt clutching mechanism allows the outside knob to rotate without operating or damaging the lock.

The factory set 5 digit code is easily changed to any 4, 5 or 6 digit code using the code changing kit provided with each lock.

As the digital lockset utilizes mechanical operation, electrical wiring is not required.

002 Digital DX Locks suit right or left hand opening in doors. Versions for outward opening doors or doors with metal frames sold separately.

Key Features

Outside Function

Press the C button, enter the correct code, then turn the knob to unlock the door. Upon releasing the turn knob the code is automatically cancelled.

Inside Function

Opened by knob/lever at all times.

Hold-Back Function

Bolt hold-back function activated by rotating inside knob/lever clockwise, past 90 degrees.

Product Details

Backset	60mm
Door Thickness	32mm to 45mm
Finish	Satin Chrome Brushed* (SC)
Internal Case Assembly	High purity zinc alloy, 92mm wide, 72mm high, 54mm projection
Latch	18mm projection, stainless steel

* Finish denotes the finish on the digital code pad, the 002 lock body is supplied in satin chrome pearl.

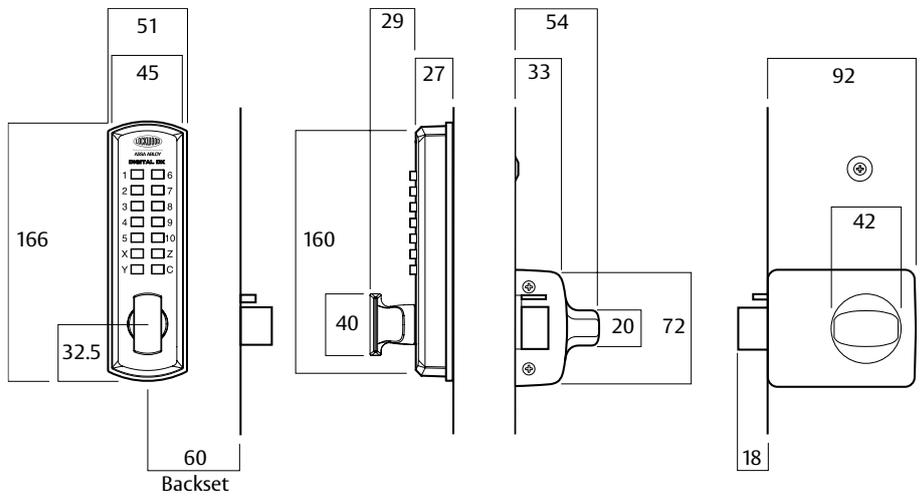

002 Digital DX Deadlatch

Exterior

Interior

Hold Back
Bolt hold-back function activated by rotating inside knob/lever clockwise, past 90 degrees.

530 Digital DX Entrance Set

The Lockwood Digital DX Locksets provide a mechanical method of keyless entry.

For extra security when under forced attack, the inbuilt clutching mechanism allows the outside knob to rotate without operating or damaging the lock.

The factory set 5 digit code is easily changed to any 4, 5 or 6 digit code using the code changing kit provided with each lock.

Lockwood Digital DX Locksets are designed to control access into commercial areas, especially when frequent combination changes are needed to maintain security.

As the digital lockset utilizes mechanical operation, electrical wiring is not required.

530 Digital DX Locks suit right or left hand doors opening inward and outward.

Key Features

Outside function

Press the C button, enter the correct code, then turn the knob to unlock the door. Upon releasing the turn knob the code is automatically cancelled.

Inside function

Opened by knob/lever at all times.

Product Details

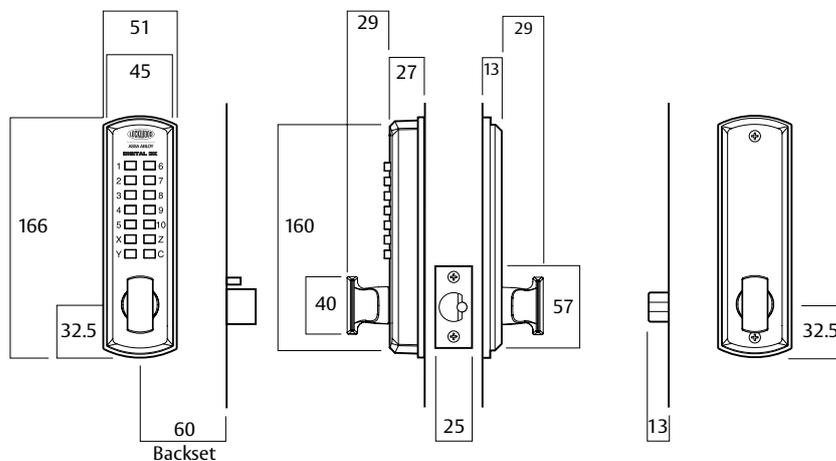

Backset	60mm, 70mm and 1277mm latches available separately on application
Door Thickness	32mm to 45mm
Finishes	Satin Chrome Brushed (SC)
Latch	Brass 13mm projection deadlatch

* Options: Also available in double keypad version, which provides a keypad on each side of the door.

Fire Rated

Successfully tested to 2 hours on fire door assemblies in accordance with Australian Standard AS 1905.1 2005 - Part 1, Fire Resistant Doorsets.

Mortice Digital DX Lockset

The Lockwood Digital DX Locksets provide a mechanical method of keyless entry and are designed to control access into commercial areas, especially when frequent combination changes are needed to maintain security.

For extra security when under forced attack, the inbuilt clutching mechanism allows the outside knob to rotate without operating or damaging the lock.

The factory set 5 digit code is easily changed to any 4, 5 or 6 digit code using the code changing kit provided with each lock.

As the digital lockset utilizes mechanical operation, electrical wiring is not required.

3570 Mortice Digital DX Locksets facilitate the combination of 3572 Series Cylinder Mortice Locks, Lockwood 1800 or 2800 Series and DX Digital code pad to provide keyless entry.

Key Features

Outside Function

Press the C button, enter the correct code, then turn the knob to unlock the door. Upon releasing the turn knob the code is automatically cancelled.

Inside Function

By lever handle or knob at all times.

Hold-Back Function

A key operated hold-back function is available upon request. This is achieved by a pin tumbler cylinder on the inside allowing the bolt to be held back.

Product Details

Backset	60mm

3572 Key Override Digital DX Lockset

The Lockwood Digital DX Locksets provide a mechanical method of keyless entry and are designed to control access into commercial areas, especially when frequent combination changes are needed to maintain security.

For extra security when under forced attack, the inbuilt clutching mechanism allows the outside knob to rotate without operating or damaging the lock.

The factory set 5 digit code is easily changed to any 4, 5 or 6 digit code using the code changing kit provided with each lock.

As the digital lockset utilizes mechanical operation, electrical wiring is not required.

3570 Mortice Digital DX Locksets facilitate the combination of 3572 Series Cylinder Mortice Locks, 577 cylinder assemblies, Lockwood 1800 or 2800 Series and DX Digital code pad to provide keyless entry with key override.

Key Features

Outside Function

Outside: Press the C button, enter the correct code, then turn the knob to unlock the door. Upon releasing the

turn knob the code is automatically cancelled. The key override pin tumbler cylinder enables quick access by key for authorities such as the fire brigade or those who need to carry a master key to access all rooms of a building. Inside: By lever handle or knob at all times.

Inside Function

By lever handle or knob at all times.

Hold-Back Function

A key operated hold-back function is available. This is achieved by a pin tumbler cylinder on the inside allowing the bolt to be held back. Will also require change to internal furniture plate.

Restricted Special Keying

Lockwood locks can be keyed to a number of controlled and/or specially keyed systems. These range from legally protected keys to protect against unauthorised duplication, which can also include specially designed key systems such as master key systems, which allow for different levels of mechanical access control.

Please refer to Lockwood Catalogue Cylinders & Keying for keying systems or contact your local sales office or customer service for specific information.
