Anneau Porte

Tumbler Holder
Porte-Verre

Soap Dish
Porte Savon avec Cuvette

In fashion, coordination is a key element. The Synergy Shower slides have been created as a complementary match to the accessories.

Following the established theme the Synergy slide bar and adjustable locking unit are made from solid brass with a chrome finish for durability.

The shower head options include the unique hexagonal head, single and multi-function sprays and the minimalistic styling of the microwand.

The 1.5 meter long hose allows for versatility of movement, and its stainless steel construction ensures longevity. The brass water connector completes each one of these sets to create the final element that is Synergy.

Sliding Shower Set
